

Caparica, October 2nd 2017

Dear Prof. Dr. Maria Amélia Dionísio,

On behalf of the Organizing Committee of the HERACLES Fall School "Characterization Techniques in Cultural Heritage" to be held at FCT|NOVA in Monte de Caparica, Portugal, from 11 to 12 October 2017, I have the pleasure to propose your name as an "Invited Speaker" on the morning session of the 12th of October.

The Fall School is under the scope of the HERACLES project that has received funding from the European Union Framework Programme for Research and Innovation HORIZON 2020 under Grant Agreement 700395.

The Fall School is concerned with technological and analytical research of materials from Cultural Heritage. The scientific progress of the last decades offers new opportunities to analyze these materials in various ways giving fascinating insights into the composition and technologies of the materials.

Due to your long lasting and outstanding experience in the field, your contribution is extremely appreciated.

With my best regards,

João Pedro Veiga

Chair of the HERACLES Fall School
UNINOVA, FCT|NOVA
